

Technical Rider 2025

CONTACT INFO:

KAN MUNSON – KANMUNSON@GMAIL.COM

(423) 400-3409

AUDIO REQUIREMENTS

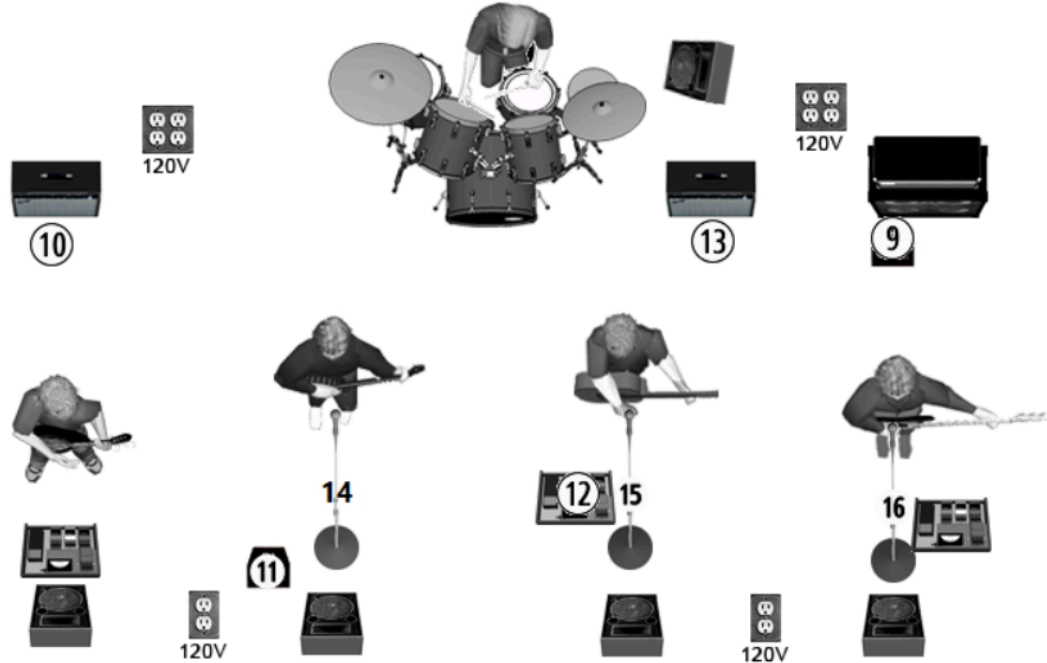

- 1.) Digital Mixer with MINIMUM 16 Channels**
- 2.) A minimum of THREE [3] floor monitors, FIVE [5] are preferred.**
- 3.) TWO [2] 20-Amp circuits for backline located upstage, and TWO [2] 15-amp circuits downstage**
- 4.) Venue will provide all mic cables and stands, as well as microphone package.**
- 5.) One qualified audio engineer to run FOH as well as monitors**

LIGHTING REQUIREMENTS

- 1.) We would prefer a minimum of a front wash that lights up the full band, as well as a nice color wash with any upstage lighting. If there is a house LD, they are free to use their own discretion with colors, chases, and lighting cues. The one thing we ask is no strobing of the downstage wash and no oil-based hazers. We want the LD to have as much fun as possible!**

Tech Rider 2024

#	Instrument	Preferred Mic	Stand	Notes
1	Kick In	Beta 91		+48v, Gate
2	Snare	SM57	Short	Comp
